

15th Annual Rachmiel Levine Diabetes and Obesity Symposium

Grant Award Details

15th Annual Rachmiel Levine Diabetes and Obesity Symposium

Grant Type: Conference

Grant Number: CG1-08177

Project Objective: Under this reporting period, the 15th Annual Rachmiel Levine Diabetes Symposium provided forum for scientific and medical communities to gather and engage in international dialogue on stem cell research, as well as help foster collaborations in the field. The program provided a balanced prospective on stem cell and islet research in diabetes, with sessions dedicated to beta cell regeneration, beta cell replication; reprogramming of islet cells to beta cells; and diabetic cell stress.

Investigator:

Name:	Fouad Kandeel
Institution:	City of Hope, Beckman Research Institute
Type:	PI

Award Value: \$20,000

Status: Closed
